10 million tonnes
of **steel** traded every
year by GFG Alliance

Trading with
35 Countries
worldwide

Over
35,000
tonnes pa of **Nickel**
traded **internationally**

The GFG Alliance has expertise in trading that stretches over nearly six decades. It is a global solutions provider to the international steel and non-ferrous metals industries, trading 10m tonnes every year.

With a presence in 30 countries across five continents, the GFG Alliance has many long-standing relationships with clients, some established over decades.

The Alliance has an extensive ferrous material portfolio including iron ore, scrap and coking-coal to slabs, hot rolled coil and merchant bar. Its non-ferrous division trades nickel, zinc, copper, aluminium and tin, and the energy division trades

in oil products, coal and electricity.

GFG Alliance's supply chain solutions cover logistics, cargo handling, inland movement of Cargo, container handling and stuffing, storage at warehouses and ports, chartering of vessels, breaking bulk, inspection, insurance as well as inland distribution of materials at destination.

Value added services also include financial solutions such as prepayments, inventory finance, tolling finance and open credits, as well as price risk management, service centres and partnerships.
